Guidelines of National Handloom Development Programme (NHDP)

1. INTRODUCTION

The handloom sector has a unique place in the Indian economy and plays a vital role in terms of providing employment, cloth production and value addition while at the same time preserves India's rich cultural heritage. The sector provides direct and indirect employment to more than 43 lakh weavers and allied workers, mostly from the SC/ST, backward and minority community. The sector has been sustained by transferring of skills from one generation to another. The sector accounts for approximately 15% of textile production and makes a significant contribution in export earnings. Because of the uniqueness and exclusivity of designs, capability to produce small batch sizes and being eco-friendly fabric, handloom products are in high demand in the international market besides the domestic market and discerning retailers look for reliable source for constant supply of authentic handloom products on regular basis. However, handloom weavers, being unorganised, face problems in supplying their products of large orders in absence of systemised production wherein they may cater to the stringent quality and timely delivery. Therefore, there is a need to bridge the gap through infrastructure development, skill up-gradation, design and product development as per the market demand so that weavers get better remuneration for their products and an assured market. Through sustained efforts of the Ministry of Textiles, there has been significant development of handloom sector which is now able to sustain the competition with machine made fabrics.

The Government of India has been following a policy of promoting and encouraging the handloom sector through a number of policies and programmes. Most of the schematic interventions of the Government of India in the Eleven Plan and Twelve Plan period have been through the State Agencies and Cooperatives in the Handloom Sector. However, in the face of growing competitiveness in the textile industry both in the national and international markets and the free trade opportunities emerging in the post MFA environment, a growing need has been felt for adopting a focused yet flexible and holistic approach in the sector to facilitate handloom weavers to meet the challenges of a globalize environment. A need has also been felt to empower weavers to chart out a sustainable path for growth and diversification in line with the emerging market trends. The National Handloom Development Programme (NHDP) is an attempt to facilitate the sustainable development of handloom weavers located in and outside identified handloom clusters into a cohesive, self-managing and competitive socio-economic unit.

2. **National Handloom Development Programme (NHDP)– A CENTRAL SECTOR PLAN SCHEME**

National Handloom Development Programme (NHDP) has been formulated for its implementation during 2017-18 to 2019-20. The scheme will follow need based approach for integrated and holistic development of handlooms and welfare of handloom weavers. The scheme will support weavers, both within and outside the cooperative fold including Self Help Groups, NGOs etc. towards raw material, design inputs, technology up-gradation, marketing support through exhibitions, create permanent infrastructure in the form of Urban Haats, marketing complexes, development of web portal for e-marketing of handloom products etc.

3. **COMPONENTS OF THE SCHEME**

- a. Block Level Cluster Projects
- b. Handloom Marketing Assistance
- c. Concessional Credit
- d. Handloom Census
- e. Handloom Park
- f. National Centre for Textile Design
- g. R&D Projects
- h. J&K Wool Development Project
- i. Special Projects for Special Category States
- j. National Institutes of Open Schooling(NIOS)
- k. Cluster Cell at Hq.
- l. Innovative Ideas
- m. Publicity, Advertisement, Monitoring, Training & Evaluation of Scheme

A - Block Level Cluster

The cluster development approach focuses on formation of weavers' groups as a visible entity so that the groups become self-sustainable. Cluster will be set up at Block level, having concentration of handlooms. In a Block, more than one cluster may also be taken up depending upon need with respect to number of handlooms.

While selecting the Block Level Cluster, preference should be given to the clusters having concentration of weavers belonging to Scheduled Castes community, contiguity of clusters, backwardness of the cluster based on classification of Ministry of Rural Development, Common Service Centres (Department of Electronics & Information Technology), Tourist potential etc. Criteria followed for selection of cluster should be highlighted for each cluster in the SLPC minutes.

(1) Quantum of financial assistance for new clusters

The quantum of assistance for each cluster would be need based, depending on the requirement of the cluster, the scope of the activities envisaged in the cluster development project, technical, financial and managerial capacity of the Block level cluster Organization, level of maturity and past track record of the cluster etc. Maximum permissible GoI financial assistance is upto Rs. 2.00 crore per cluster.

(2) Baseline Survey, Diagnostic study, formation of Self Help Groups (SHGs)/Joint Liability Groups (JLGs), Awareness Programmes

(i) Baseline Survey

The baseline survey would require visit to every weaver of the cluster for preparing the profile of the cluster i.e. number of active handlooms, type of handlooms, number of weavers (men/women – General/SC/ST/OBC/Minority etc.), type of yarn used, product range, average weaver income etc. A proforma for profile is at **Annexure-A (1)**

(ii) Diagnostic Study

Diagnosis of the cluster is the first step towards taking any implementable action plan. It will help in identifying the strengths and weaknesses, environment that the cluster operates in and what strategic steps need to be undertaken for effective output. The diagnosis will provide strategic direction and likely outputs that the clusters should aspire to reach over a period of time. The exact action points will emerge largely out of the trust building and validation by the cluster actors. The objective of a diagnosis is to a) understand and analyse the current scenario under which the handlooms are operating in the cluster i.e. analysis of business operations, nature of production activity, profiling of products, patterns of production and existing market potential for it. A proforma for profile of cluster is at **Annexure-A (2)**

(iii) Formation of Consortium

The consortium would involve stake-holders from the Self Help Groups (SHGs), Co-operative Societies, Master weavers, Private Entrepreneurs, NGOs etc. who would be required to interact with the weavers and tie up linkages with the connected organizations like; banks/financial institutions, market institutions/marketing experts, marketers, legal experts, Government machineries, weavers etc.

(iv) Awareness Programmes

In order to generate awareness among the weavers about the Scheme, Weavers' Credit Cards, Yarn Pass books and other handloom schemes etc., awareness programmes will be conducted in the cluster.

(v) Product Development

To innovate the handloom products with the time, there is a need to develop the product so as to stand in the market. Cost towards purchase of stationery for preparation of paper designs, purchase of raw material for development of prototypes, cost of transfer of paper design on the fabric will be met under this component.

(vi) Purchase of Computer Aided Textile Design System (CATD) System

Financial assistance towards purchase of requisite hardware and software for Computer Aided Textile Design (CATD) System, colour forecast, trend forecast and other allied requirement will be provided to develop new designs. Single CATD system is permitted for purchase for the block level clusters in the State, which shall be installed in the premises of Weavers' Service Centre (WSC) concerned. Funds released by this office for the purpose will be transferred to WSC concerned for purchase of suitable CATD who in-turn shall provide new designs to the weavers.

(vii) Documentation of cluster activities

After the cluster development programme is over, it is necessary to document the activities undertaken so that a record is built up.

(viii) Payment of Administrative cost to designated agency under HSS.

Administrative cost should be paid to designated agency for transfer of funds through DBT in beneficiaries account for purchase of looms, dobby, jacquards etc. as per the guidelines of Hathkargha Samvardhan Sahayata (HSS)

Designated agency i.e. NHDC etc. will be paid service charges @ 1.25% to 2% of the Gol share on the lines of Yarn Supply Scheme.

(7) Corpus fund for Yarn/marketing

(i) Presently, weaver/agency is required to pay National Handloom Development Corporation (NHDC) an advance amount for purchase of yarn and the delivery of yarn is made by NHDC in a time frame of about 3-4 weeks. This delays the production process. Thus, in order to ensure regular availability of yarn of requisite counts, one-time financial assistance upto Rs.5.00 lakh per cluster will be provided as a Corpus Fund to the NHDC to enable it to ensure supply of yarn to the weavers through the yarn depot at the cluster. Yarn will be supplied to the weavers by the yarn depots against payment. Release of corpus will be considered based on the requirement of the cluster assessed by NHDC.

(ii) Alternatively, Corpus of Rs.5.00 lakh will be provided for marketing of handloom products of the cluster to Central PSU engaged in marketing of handloom products.

(9) Skill up-gradation

Financial assistance will be provided for Skill up-gradation for the Cluster in a Block for imparting training in technical areas like weaving, dyeing, designing, managerial areas and IT. Within the approved cost norms for various components, training programmes to meet the special needs of a cluster would also be permissible. Training programmes should be carried out in the block and not in the premises of WSC.

Implementing Agency (IA) will release funds for training in technical areas like designing, dyeing & weaving to the WSC concerned for conducting the training in the Block concerned. In case, technical training is to be conducted through any other agency, NoC will be obtained by the IA from WSC concerned. Batch size of training is 20 trainees and duration for weaving programme is 45 days and Dyeing/Designing/Printing programme is 15 days. Details of each training

programme are at **Annexure – A(4)**. For training in IT/managerial, cost of training per batch of 20 trainees in each discipline i.e. IT/managerial for 5 days is Rs. 50,000/-.

Disposal of samples & looms

- (i) For disposal of the samples developed during the training programmes, the preference for their purchase may be given to the trainees. The cost of the sample may be worked out by adding the cost of raw materials, dyes and chemicals and 10 % overheads.
- (ii) The looms purchased for the training programme may be used for the purpose of training of weavers in different batches. Finally, these may be handed over to the cooperatives for production or loom-less trained weavers with due acknowledgement. A decision in this regard may be made by a committee with representative of the WSC, State Govt. and Implementing Agency.

Assessment of trainees, who have undergone training in weaving in the Block Level Cluster, into be done to know the extent to which the weavers acquired/upgraded skills during training programme. Detailed guidelines are as follows:-

(a) Objectives

Training aims to enhance skills of the weavers to ensure that they earn improved wages by producing value added products. Hence, it is imperative to assess effectiveness of the training programmes to know the extent to which the weavers achieved/upgraded skills during the training programme.

(b) Preliminary assessment of trainees

It has to be made by the training agency concerned to arrive at a reference point with respect to the current skill level of the trainees, which would eventually help in assessing the improvement achieved by the trainee under the current training programme. The expected outcome of the training programmes for each of the trainees would also be planned under preliminary assessment. Since nature of training will vary from block to block and group to group based on the products manufactured, skill level of trainees, hence utmost care is to be taken in designing the training programmes and setting up of expected outcomes.

Before commencement of the training programme, training agency concerned ensure display of the chart in the training premises indicating the names of the trainees, present and proposed skills, date of commencement of training, name of the master trainer etc.

(c) Final assessment

Final assessment needs to be conducted upon completion of training programme. The assessment would consider preliminary assessment report too.

i) Criterion of assessment: Performance of the trainee shall be assessed through practical test on various parameters such as number of defects in weaving (minimum defects to ensure quality products), efficiency (how quickly and effectively the trainee can weave), ability to produce/weave new/ intricate designs and adopt new technology. Marks allotted for assessment on each parameters are as follows:

i.	Quality	40 Marks
ii.	Efficiency	25 Marks
iii.	Adopt new technology	20 Marks
iii.	Ability to weave new/intricate designs	15 Marks
	Total	100 Marks

ii) Agency other than training agency to assess training programme: Assessment of the training programme will be done by an agency other than training agency and will be approved by Zonal Director of WSC concerned. Final assessment plan should be prepared sufficiently in advance by the WSC concerned and it should be conducted immediately on completion of the training programme so that necessary infrastructure/raw material, trainees and master trainer are available.

iii) Qualifying marks: Trainees scoring 50 or more marks shall be considered to qualify the assessment test and shall be eligible to get the training certificate.

iv) Penal Action: If in the assessment of any batch of trainees, more than 50% of them score less than 50 marks, it is presumed that master trainer has not taken due care in imparting training and in such cases, master trainer shall be debarred for being considered as master trainer for a period of next two years and due intimation shall be made to State Directorate of Handlooms & Textiles and Zonal Director, WSC concerned.

(d) Submission of Assessment Report

Assessment report of each trainee of a batch shall be sent to the O/o DC (Handlooms), State Directorate of Handlooms & Textiles and Zonal Director of WSC concerned.

Urban Haat

Detailed guidelines showing position of financial releases in respect of Urban Haat

1. Objective:

The scheme for setting up of urban haats was introduced in 1997-98 at prime locations in the country. The participating craft persons / weavers will sell handicrafts / handlooms products directly to the customers. This will provide adequate direct marketing facilities to the craft persons / weavers and eliminate middle agencies. Another feature of the haat is that there will be adequate stalls selling authentic Indian cuisines of various regions in the country by rotation. The Food & Craft Bazar will provide leisure and recreational facilities for both domestic and international tourists in line with Dilli Haat which has reached International status in just a few years of its existence.

2. Eligibility:

The scheme will be implemented through State Handicrafts / Handlooms Development Corporations / Tourism Development Corporations with sufficient funds resources.

3. Location:

The Urban Haat will be set up at strategic locations in urban area in consultation with concerned State Governments. The area should be developed providing the ambience suited to such a Haat, which pre-supposes creation of green belts in and around the Haat with sufficient open spaces. The area of the Haat may vary depending upon availability of land. It may, however, be not less than 8000 Sq. meters. The responsibility of providing developed land at a suitable location will be of the concerned State/implementing agency. The clear title of the land should be in the name of Implementing agency and it should be free from all encumbrances.

4. Design concept:

The area will be developed as a park where, constructed area may be limited to around 10% to 20% of the total area keeping sufficient provision of open space. The shops/stalls will be set up on platforms, which act as a link in the Haat design. The courtyards in between the shops will be paved in stone/ suitable material interspersed with grass to retain visual softness. The entire complex will be designed to keep a low profile in harmony with surrounding environment, and stalls will be constructed to reflect local construction culture. The size of stall shall normally be 10' x 8' minimum & exhibition Hall shall be able to accommodate display of products of at least 40 – 50 crafts persons/weavers. It is preferred that dormitory for stay of ladies & gents may also be made separately.

The complex will also have suitable structure for cultural programmes, performing arts etc. The entire area will be extensively landscaped to provide a conducive environment for recreation and leisure.

It is planned to have 40-50 stalls where the crafts persons/weavers will sell their items directly to the buyers. The stalls will be available on hire on a day-to-day basis. The food side of the

Haat will have properly serviced 5-7 stalls with plumbing, counters and space to accommodate kitchen equipments.

There will also be provision of 2 exhibition halls/museums in the haat to cater to the requirement of organising STATE DAYS and other exhibitions. Provision for dormitory for outstation craft persons / weavers may also be made.

Both kinds of stalls will be provided to the artisans/weavers/State Handicrafts & Handloom Corporations/NGOs/Tourism Corporations on rotation basis for fifteen days on nominal charges per day. The system of allotment of stall would be transparent so as to accommodate artisans/craftsperson. No traders or middlemen will be considered for allotment of stalls in these haats. The respective local Haat Management Committee will make selection of craftsperson/weavers and organisations. There will be a souvenir shop and a meeting room of moderate size to cater to the administrative requirement of the Haat.

5. Approximate estimate of the project:

The estimated project cost is Rs.3.00 crore.

2. Mode of finance:

The capital cost of the project which is expected at Rs.300.00 lakh is to be financed as under:-

	Sharing pattern	Total amount

(A) The Central assistance will be frozen at Rs.2.10 crore per urban haat and any escalation in the cost shall be borne by the State Government/implementing agencies.

(B) In addition to the above, a lump-sum grant of Rs.15.00 lakh in the first year and Rs.10.00 lakh in the second year is permissible for publicity of the project.

The assistance towards Marketing Incentive (MI) shall be eligible to State handloom corporations, apex co-operative societies, primary handloom weavers co-operative societies & national level handloom organizations. Marketing Incentive should be given to those agencies, which really need marketing support and it should be given maximum for 3 years so that the agency sustains on its own afterwards. An upper cap of Rs. 30 lakh of annual turnover is fixed for eligibility for release of Marketing Incentive so that needy societies are covered within the available budget. Societies having more than an annual turnover of Rs. 30 lakh are not eligible for MI.

Marketing Incentive to the handloom organizations/societies will be provided as follows:

- (a) For the purpose of MI claim, Handloom Mark is made compulsory i.e. the societies selling their products should necessarily use handloom mark. 1. Background:

Government approved Institutional Credit component under IHDS in December 2011 and provided margin money assistance of Rs.4200/- per weaver, interest subsidy of 3% and credit guarantee through Credit Guarantee Fund Trust for Micro & Small Enterprises (CGTMSE). E. Handloom Parks

1. **Background:**

- 1.1 Scheme for Integrated Textile Parks (SITP) was first launched in 2005 and extended till March, 2017 to provide the industry with world class state of the art infrastructure facilities for setting up their textile units. The scheme facilitates textile units to meet international environmental and social standards. The scheme targets industrial clusters/locations with high growth potential, which require strategic interventions by way of providing world-class infrastructure support. The main objective is to provide infrastructure facilities for setting up textile units in potential growth areas matching with the international social and environmental standards.
- 1.2 Handloom Weaving is one of the largest economic activities after agriculture providing livelihood to nearly 28 lakh households, of which 87% are located in rural areas. The total employment by this sector is almost 43 lakh. Handloom fabric attracts huge interest due to its unique designs, exquisite artistic value and traditions involved at each different location known for handlooms. Handlooms also attract interest from designers as they provide flexibility, versatility and diversity in creating new designs and unique patterns. A key feature of the handloom sector with particular relevance to the country is the potential for creating and sustaining employment with minimum investment. Further, livelihoods are created in rural areas at the homes of the weavers which prevents migration to the urban areas.
- 1.3 Two Handloom Parks have been so far sanctioned under SITP, one at Pochampally, Telangana has been established in which SPV owns the whole project and another one at Kancheepuram, Tamil Nadu is being set up in which SPV will own the common infrastructure and facilities while production will done by the 20 master weavers in workshed with 10 looms each. Handloom Parks are considered as necessary intervention to build supply chain for serving bulk orders and export markets. From the learnings of the PHP, it is found that Handloom Park should not be heavy debt driven and the optimum capacity for setting up of Handloom Park should be 200 looms.
- 1.4 Demands have been raised from various States for setting up of Handloom Parks. Development of optimal sized handloom parks which can be the hubs for production of quality material according to the delivery schedule demanded by bulk buyers such as exporters and garment manufacturers has been proposed in new Textile Policy also. Increased funding is required in case of Handloom Parks.

2. **Scope:**

- 2.1 Handloom Park will have the following components:
 - a) Land
 - b) Common Infrastructure: Site development, compound wall, Roads ,water supply, electrical infrastructure, effluent treatment etc.
 - c) Buildings for common facilities: Admin Block, Design centre(including equipments), marketing support system, pre-weaving and post-weaving activities etc.
 - d) Buildings for Weaving Block
 - e) Equipments for common facilities: dyeing equipment with ETP, Pre-weaving machinery, Post-weaving machinery and stitching machines.
 - f) Margin money for Working Capital, Project management cost, DPR, survey etc.
- 2.2 The total Project Cost for the purpose of Handloom Park includes the cost on accounts components listed under a, b, c, d, e and f in cases where SPV is floated

by State Government. The State Governments may provide land as a part of its equity contribution and the cost of land would be part of project cost. Individual units in the park will not have to bear any cost towards the land and building and will be bearing only the cost for looms and accessories.

- 2.3 The total Project Cost for the purpose of Handloom Park includes the cost on accounts components listed under b, c, d, e and f in cases of SPV floated by private handloom entrepreneurs. The cost of land would not be part of the project cost. SPV will bring land from its own sources. Such promoters should undertake to set up all individual units in the park and also contribute the cost for installing looms and accessories.
- 2.4 Weaving Blocks construction should be kept frugal but robust by using pre-fab material or locally available good quality material to optimize the cost. Weaving blocks would be constructed in two phases. The second phase would be taken up as and when weaving activities start in the weaving blocks of first phase.
- 2.5 The following will be the tentative breakup of cost component wise for a Handloom Park with 200 looms:
